## California Department of Education School Accountability Report Card Reported Using Data from the 2016-17 School Year

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

### DataQuest

DataQuest is an online data tool located on the [CDE DataQuest Web page](#) that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## Janelle Campbell, Director

Principal, Marin County Special Education

### About Our School

School districts in California are mandated to provide special education services to children with disabilities from birth through age 22. While the local Marin County School Districts are able to provide many of these services for students with mild disabilities, there are many other disabling conditions which require such an intensive level of support or which have such a low incidence rate that it would be fiscally and programmatically difficult for each district to provide the necessary services.

The Special Education Department operates a total of 32 Special Day Classes, two Resource Specialist Programs, and several itinerant services to meet the needs of children with disabilities. Our classes are located on 18 different school campus sites around the county, with an emphasis on placing classes in age-appropriate settings which allow for the greatest amount of integration possible. The classes which we provide focus upon students with disabilities in the following areas:

- Intellectual Disabilities
- Emotional Disturbances
- Visual Impairments
- Orthopedic Impairments
- Deaf or Hard of Hearing
- Other Health Impairment
- Established Medical Disability (ages 3-5 only)
- Multiple Disabilities
- Autism
- Traumatic Brain Injury

We also provide several itinerant services to eligible students in their home school setting, including:

- Vision Services
- Hearing Services
- Orientation and Mobility Services

### Principal's Comment

Marin County Office of Education operates a myriad of special education programs on behalf of the students and districts of Marin. Janelle Campbell is the Director of Special Education that oversees all Marin County Office of Education special education programs.

### School Description and Mission Statement (School Year 2017-18)

The Marin County Office of Education (MCOE) and all school districts located in Marin County are members of the Marin County Special Education Local Plan Area (SELPA). The Marin County SELPA works collaboratively with 18 school districts and other public agencies throughout Marin County to make available a full continuum of Special Education services to all students with Individualized Education Programs (IEPs) residing in Marin County.

MCOE provides regionalized Special Education programs and coordinated services to students with disabilities residing in Marin County ages birth through 22. Students are referred to Special Education programs by their districts of residence based upon their individual needs. In addition to the comprehensive school age programs, MCOE also provides Early Intervention services for students birth through age 5 and Secondary transition education offering community-based instruction that facilitate independent living skills.

## A. Conditions of Learning

### State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

#### Teacher Credentials

Teachers	School			District
	2015-16	2016-17	2017-18	2017-18

Misassignments of Teachers of English Learners	0	0	0
Total Teacher Misassignments*	0	0	0
Vacant Teacher Positions	0	0	0

Note: "Misassignments" refers to the number of positions filled by teachers who lack legal authorization to teach that grade level, subject area, student group, etc.

\* Total Teacher Misassignments includes the number of Misassignments of Teachers of English Learners.

## School Facility Conditions and Planned Improvements

Providing a safe environment that meets the state standards for school programs is a priority for Marin County Office of Education. The majority of our regionalized special day class programs operate on comprehensive school sites, within and across school districts in Marin County. In addition the MCOE owns 3 facilities that operate programs. The Facility Inspection Tool report is reflective of these 3 sites.

Marin County Office of Education maintenance staff and the Marin County school districts' maintenance staffs where Special Education programs are located work in collaboration to ensure that the repairs necessary to keep the schools in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority. All classrooms and restrooms are cleaned regularly. All classrooms are inspected regularly to ensure safe conditions and the proper use of equipment.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### CAASPP Test Results in ELA and Mathematics for All Students

##### Grades Three through Eight and Grade Eleven (School Year 2016-17)

Due to the lower number of students participating in the CAASPP assessment, score reports cannot be generated.

Subject	Percentage of Students Meeting or Exceeding the State Standards					
	School		District		State	
	2015-16	2016-17	2015-16	2016-17	2015-16	2016-17
English Language Arts / Literacy (grades 3-8 and 11)	7%	6%	5%	9%	48%	48%
Mathematics (grades 3-8 and 11)	4%	6%	3%	5%	36%	37%

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3--Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The 2016-17 data are not available. The California Department of Education is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The new California Science Test (CAST) was piloted in spring 2017. The CST and CMA for Science will no longer be administered.

**Career Technical Education Programs (School Year 2016-17)**

Career Technical Education (CTE) provided by the Marin County Office of Education to students in the regionalized special education programs is not consistent with a traditional CTE program operated by a school district. When students are enrolled in elementary programs, vocational interests are identified. Upon reaching high school, student vocational interests are further developed. By the age of 16, an individual transition plan is developed with students, families and adult services agencies to facilitate student transitions from school. Vocational skill development including but not limited to, resume writing, interviewing, and areas of vocational interest are available through the Transition Partnership and Workability programs.

# State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8):

- Pupil outcomes in the subject area of physical education

## California Physical Fitness Test Results (School Year 2016-17)

Many of the students enrolled in Marin County Office of Education regionalized special education programs are unable to fully engage in the physical tasks required to complete the California Physical Fitness Test. Results should be interpreted with caution.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite

#### Opportunities for Parental Involvement (School Year 2017-18)

Parents can be involved in their child's education program in several ways. Volunteering on a regularly scheduled basis or intermittently (e.g., field trips) is encouraged. Parents may also join and participate in the parent organization at the school site their children attend. The Special Education Advisory Committee, (SEAC) for the Marin County Special Education Local Plan Area (SELPA) offers another opportunity for parental involvement. Lastly, parents are also actively involved in the development of their child's Individualized Education Program (IEP) and attend IEP meetings at least on an annual basis.

### State Priority: Pupil Engagement

## School Safety Plan (School Year 2017-18)

Providing a safe environment that meets state standards continues to be a high priority for each Marin County Office of Education program. Programs meet state requirements for total acreage and square footage per pupil. The Marin County Office of Education has a Comprehensive School Safety Plan that provides for an assessment of the current status of school crime. The Plan also covers the following areas with strategies and programs:

- child abuse reporting procedures;
- disaster procedures;
- policies regarding actions leading to suspension and/or expulsion;
- notification to teachers of dangerous pupils;
- sexual harassment policy;
- school-wide dress code;
- procedures for safe ingress and egress of pupils;
- rules and procedures on school discipline.
