

Acknowledgements

The development of the Marin School Wellness Toolkit and the Marin School Wellness Policy Training and Technical Assistance Series is the result of the hard work of a number of committed individuals and organizations. The Steering Committee of the Marin County Nutrition Wellness and Physical Activity Collaborative developed a Training Subcommittee to undertake the task of sorting through the vast information and literature on school wellness policy and ultimately developing a vision, toolkit, and training series for Marin County schools. We are incredibly grateful for the hard work of all of the members of this committee.
