

Empowering communities locally and globally to build special needs programs.

PRESENTS

Empowering Grandparents

October 27, 2019 at Marin County Office of Education Conference

8:30 to 1:30/1111 Las Gallinas Ave. San Rafael

Offerings is gathering six to eight grandparent families who are interested in exploring a range of topics associated with becoming a grandparent of a child with autism.

Topics will include:

- 1) what families go through when they are told their grandchild has autism
- 2) roles grandparents can play
- 3) positive strategies for interacting with their grandchildren
- 4) understanding the challenges their grandchild faces (communication, sensory, social and learning differences)
- 5) getting to know resources and supports available.

This first seminar is free to the grandparents. Grandparents will be asked to complete a short, simple, pre-seminar survey and then a seminar evaluation at the end day. Morning snack and boxed lunch will be provided.

If you know of a grandparent who could benefit by participating in our first group, please ask them if you can share their name, email address and phone number and/or provide them with my contact:
