11 SIMPLE RULES TO CREATE THRIVING COMMUNITIES FOR CHILDREN

A Mutual Learning Network for anyone who has fully participated in Optimistic Leaders or Thriving Communities.

A commitment to actively participate in all conversations is required.

ABOUT THRIVING COMMUNITIES

"For a child, every moment counts. How does a child learn kindness, empathy, and respect for others? As the adults in children's lives, it's our responsibility to model for children the best of what it means to be human.

Mutual learning is equity in action where all voices are respected and heard. Individuals increasingly see themselves as agents of change for children, and they cultivate equitable partnerships that create ripples of change across the early learning ecosystem."
