The Teaching Pyramid Framework is recognized as a powerful strategy for supporting and meeting the needs of the children, families, and staff.

The systematic framework promotes social & emotional development, provides support for children's appropriate behavior, prevents challenging behavior, and addresses problematic behavior.

The Teaching Pyramid is founded on evidence-based practice originally developed by the Center on the Social Emotional Foundations in Early Learning (CSEFEL), authorized by California Department of Education (CDE), and aligned with California's Early Learning and Development System.
