

Foster Youth Services

The Marin County Office of Education (MCOE) is in the final year of funding for California's Foster Youth Services (FYS) grant. This grant funds County Offices approximately \$50,000 annually to support the educational success of foster youth students by providing resources such as school supplies, tutoring/mentoring, and regular coordination/technical assistance between Marin school districts and County agencies. The MCOE is in communication with the County of Marin's Child Welfare Services to hire a Foster Youth Educational Liaison and to collaborate on a new database system to efficiently monitor Foster Youth children from Marin County.
