

Homeless and Youth Grant

MCOE received notification from the CDE that the Homeless Children and Youth Grant submitted for the new cycle of funding this past winter was denied. In previous years MCOE has received this multiyear funded grant which provided approximately \$69,000 annually to provide resources such as school supplies, clothing, hygiene items, technology equipment, transportation and coordination of services for this profile of youth.

The next Request for Applications is scheduled to be released in the fall of 2017 for the grant cycle 2018-2021. In order for Districts to support this population of students, they will need to access local resources which may include a district's Title I homeless reservations funds.
