In the fall of 2013, we set out to break the cycle of unhealthy, pre-packaged, processed, heat and serve foods that dominate school dining halls. We fed students at Bayside MLK Jr. Academy more than 50,000 fresh, local, organic, seasonal, non-GMO meals, alongside an interdisciplinary garden and nutrition program. Now, The Conscious Kitchen is launching its second site at Willow Creek Academy in Sausalito. Beginning in Fall 2015, the program will serve the 500+ students at both schools in the Sausalito Marin City School District.

Be our guest for a FLOSN lunch at The Conscious Kitchen, meet our team and students, and learn about how we're working toward a healthy future for children everywhere.
