

Connecting NGSS to Marin's Bay And Ocean Backyard

How do we include the study of climate change as it relates to Marin County's coastal ecosystems in the curriculum and engage students to better understand their local aquatic ecosystems in a way that moves them to stewardship and action?

The National Oceanic Atmospheric Administration (NOAA) awarded Marin County Office of Education with a BWET Grant to work with 6th grade to 12th grade science teachers for the 2018-19 School Year around the impact of climate change on the local coastal ecosystems that surround Marin County.

Project Dates

- Field excursions in the local Marin area aligned with CA NGSS:
 - April 20, 2019 - China Camp
 - June 17, 2019 - Open Ocean - Great Farallones National Marine Sanctuary
- Cohort Workshops at Marin COE to connect excursions with classroom content:
 - Feb. 12, 2019 - 4pm - 6pm
 - May 2, 2019 - 4pm -6pm
- Summer Institute at the Romberg Tiburon Campus
 - June 18, 19 - 8:30am - 3:30pm
