*Connecting the classroom environment
with the experience of the career world.*

Bridges offers a unique educational opportunity to a select group of Marin Oaks High School students. The purpose of the Bridges program is to build a connection between the classroom environment and the experience of the career world. Via a hands-on approach and a combination of college courses, job shadows, and internships, students focus on the practical skills and experiences of choosing and pursuing a career. Graduates of Bridges will have already earned college credit, and will be on their way to continuing their college education and attaining their career goals.
