

District Music Program

Dixie Elementary School District

Districtwide

Judith Arrow

*All students experience music by playing an instrument in 4th grade.
In 5th - 8th grade, students choose between band, orchestra and choir.*

The Dixie School District's Music Department believes that music is an integral part of a student's overall education. The music program enables students to acquire knowledge, develop skills and expand their creative potential. Dixie District's music specialists strive to establish a lasting relationship with music for every student that provides satisfaction, enjoyment, and personal growth during the school years and throughout life.

Dixie District music curriculum is based on developing skills in the areas of the elements of music, performing, describing and creating. Music instruction uses the hands-on implementation of listening, singing, playing, moving, reading, writing, exploring, creating, developing and performing. Dixie District music specialists emphasize that students learn by using a variety of learning modes and cognitive processes.

Our comprehensive music program includes band, orchestra and choral music education. In 4th grade all students in the district play an instrument, in band or orchestra. In 5th grade through 8th grade students have the opportunity to choose band, orchestra or choral music education.
