

SELPA Ad Hoc Committee: Excess Cost Executive Summary

Purpose

Examine the recent enhancement and expansion of the MCOE regionalized classrooms through a programmatic and fiscal lens to determine the following:

- Did the SELPA realize a reduction in NPS placements?
- Did the SELPA realize an increase in regionalized classroom enrollment?
- How much of the annual increase to excess cost is driven by program expansion?
- How much of the annual increase to excess cost is driven by inflation and is that reasonable?

Ad Hoc Committee Members

Program and Business Officials participated from the following LEAs:

- MCOE;
- Mill Valley School District;
- Dixie School District:
- Reed School District;
- · Ross Valley School District; and
- Novato Unified School District

Methodology

September 2018:

Identified questions that would drive the analysis.

November 2018:

Reviewed data collected; determined more data was needed from the SELPA,

MCOE, and the SELPA's member LEAs to answer the identified questions.

December 2018:

Analyzed and discussed data for all questions. Findings were identified based

upon the available data.

February 2019:

Committee findings were shared and discussed with the BAC and ASC.

Major Findings

The SELPA has realized a proportionate decreased in NPS placements in the years of regionalized program expansion.

The SELPA has realized a 14% increase in regionalized classroom enrollment from 2017-2018 to 2018-2019.

71% of the annual increase to excess cost in 2018-2019 were driven by program expansion.

The remaining budgeted increase in 2018-2019 represents a 9% inflation rate. The actual inflationary increase for 2017-2018 was less 6.7%. For the 2016-2017 school year, the actual inflationary increase was 5.3%. Currently, the average annual inflation for a California school district is approximately 6%.

Excess Cost Analysis

Programmatic Focus

- What MCOE regionalized classrooms/services have been established over the past three years?
- Has there been a reduction of students served by nonpublic schools over the past three years within the SELPA?
- For students currently in MCOE classes, where were the students being served, if MCOE was not the service provider prior to placement in a MCOE regionalized classroom?
- How many students have been served in MCOE regionalized classrooms over the past three years?
- What percentage of students are being served in nonpublic schools across all of the SELPA's member LEAs? What percentage of students are being served in MCOE classrooms across all of the SELPA's member LEAS?
- What special education eligibility categories/learning profiles are being served in MCOE classrooms?
- How many Functional Behavioral Assessments (FBAs) have been conducted in MCOE classrooms over the past three years? How many students receive intense behavioral support from the MCOE Behaviorist?
- What reduction, if any, occurs in the area of 1:1 support when students transition to a MCOE classroom?

Fiscal Focus

- How much of the increase to excess costs is attributed to inflation?
- How much have nonpublic school costs increased over the past three years? Is the increase proportionate to the increase in excess cost?
- What are the total excess costs for each of the last three school years?
- How does the MCOE salary schedule compare to LEA salary schedules across the SELPA?
- What is the cost of operating a MCOE regionalized classroom in comparison to the cost of a district operated special educated classroom? Are districts using the same methodology to determine total classroom costs across each of the SELPA's member LEAs?
- What is the cost of providing Occupational Therapy through an NPA for each of the SELPA's member LEAs?
- What is the average cost of serving a student in a nonpublic school setting?
- What would the impact be if MCOE low incidence itinerant services fell under a fee for service model? Could a weighted formula exist to drive costs associated with itinerant service delivery for MCOE providers?¹

 $^{^{}f 1}$ Extra Credit - only to be analyzed after the analysis of all the programmatic and fiscal items indicated above have been completed.

Excess Cost Analysis

Driving Question:

Which MCOE regionalized classrooms/services have been established over the past three years?

The Marin County Office of Education has established six regionalized classes since the beginning of the 2015 – 2016 school year. The following classes have been established:

Early Intervention Programs	
Severe Disabilities - Special Day Class	2018 - 2019
Elementary Programs	
Emotional Disturbance - Compass Academy	2017 - 2018
Autism – Short Elementary	2017 - 2018
Skills Development Academy – Manor Elementary	2018 - 2019
Secondary/Transition Programs	
Severe Disabilities – Terra Lind High School	2017 - 2018
Severe Disabilities – College of Marin Indian Valley Campus	2018 - 2019

Please refer to Document A.

Has there been a reduction of students served by nonpublic schools over the past three years within the Marin SELPA?

Yes.

For three consecutive years, the Marin SELPA has experienced a reduction in the number of students served by nonpublic schools. The number of students served by nonpublic schools in the 2017-2018 school year was substantially less than the number of students served in the 2015-2016 school year.

Please refer to the information below.

For students currently in MCOE classes, where were the students served, if MCOE was not the service provider prior to placement in a MCOE regionalized classroom?

Data obtained from the 2017 – 2018 and 2018 – 2019 school year indicates that the majority of students prior to placement in an MCOE regionalized program attended a public school. During the 2017-2018 school year, fifteen students transitioned from a public school and seven students transitioned from a nonpublic school to an MCOE regionalized program.

Please see the information below.

¹ Data for the 2018 - 2019 year obtained November 5, 2018

How many students have been served in the MCOE regionalized classrooms over the past three years?

The MCOE regionalized classes have served 808 students over the past three years in special day class programs and resource specialist programs. The student count includes students served in Loma Alta, Community School, and the rural districts. The counts do not include students served solely by itinerant staff (i.e. hard of hearing or visually impaired).

The data indicates that although the percentage of students served has remained relatively consistent year by year, the makeup of the students served and the services the students require has changed dramatically. There has been a significant decrease in students served in the early intervention programs over the last two years, and a significant increase in students served in both the elementary programs and day treatment program. The costs of operating an elementary special day classes does not compare to the cost of operating a program serving speech-only students.

Please refer to Document B.

What percentage of students are being served in nonpublic schools across all of the SELPA's member LEAs? What percentage of students are being served in MCOE classrooms across all of the SELPA's member LEAS?

Over the past three years, the Marin SELPA's member LEAs have placed more than 150 students in nonpublic schools. In the 2016-2017 school year, 4.01% of all students eligible for special education were served by nonpublic schools, including residential placements. The percentage declined in 2017-2018 to 4.01%. At the December 1, 2018 Pupil Count, 3.91% of students eligible for special education in Marin County are served in nonpublic schools. The total count includes students placed by non-educational agencies in licensed children institutions in Marin County.

The MCOE has consistently served over 260 students in special day classes and resource specialist programs each year, for the past three school years. In the 2017-2018 school year, the Marin SELPA's member LEAs placed 7.25 % of students eligible for special education in MCOE regionalized programs. In the 2016- 2017 school year, 6.96% of students eligible for special education in Marin County were served in regionalized classes eligible for special education in Marin County were served in regionalized classes.

What special education eligibility categories/learning profiles are being served in MCOE classrooms?

The Marin County Office of Education regionalized classes serve students with a range of disabilities. There are 13 identified disability categories eligible for special education services, and the Marin County Office of Education serves all 13 categories.

Please refer to Document C.

11.6.2018 Pupil Count DOS =MCOE Excludes Rurals & Loma Alta

Control

How many Functional Behavioral Assessments (FBAs) have been conducted in MCOE classrooms over the past three years? How many students receive intense behavioral support from the MCOE behaviorist?

The Marin County Office of Education hired a 0.5 FTE behaviorist in the 2017-2018 school year to provide positive behavioral programming in MCOE regionalized programs. Similar to nonpublic schools, the Marin County Office of Education embedded behavioral support to the programs with the greatest behavioral needs. Staff of students with the intensive behavioral needs are provided with consultative support, and functional behavioral assessments are conducted based on individual student needs. Since the implementation of this new position, the behaviorist has conducted 20 Functional Behavioral Assessments and provided consultative support on behalf of 20 students in MCOE classrooms.

In the 2017-2018 school year, the behaviorist conducted thirteen Functional Behavioral Assessments (FBAs) in nine different regionalized classrooms. Of those thirteen FBAs, the majority of assessments were for students served in elementary Autism programs. In the same year, 27 students required consultative support. The greatest number of students needing support were those in elementary Autism programs and a high school program for students with severe disabilities.

Since the start of the 2018-2019 school year, the behaviorist has conducted seven Functional Behavioral Assessments (FBAs) in five different regionalized classrooms. Of those seven FBAs, three have been completed for students in Autism programs, three have been conducted for student in programs for severe disabilities, and one has been conducted in a Skills Development Academy class. This year, thirteen students have required consultative support. The greatest number of students requiring support are those in the elementary and middle school Autism programs.

It appears from the data that there is a need for positive behavioral programming, and the instructional staff is utilizing the supports provided by the behaviorist.

Please refer to Document D for more information.

How much have nonpublic school costs increased over the past three years? Is this increase proportionate to the increase in excess cost?

The cost of placing a student in a nonpublic school, using the average daily rate, has increased by \$5,247 over the last three years. The following information outlines the annual cost of placing a student in a nonpublic school, *excluding* costs for related services and transportation. The cost of a nonpublic school placement has increased by 14.5% over the past three years.

2016 - 2017: \$30, 960 2017 - 2018: \$32,760 2018 - 2019: \$36,207

Nonpublic School Rates: Social/Emotional/Behavioral Programming

Edgewood Center for Children and Families

2017-2018 Rates1

Daily Rate \$294.00

\$59,094 for a 200-day school year (includes ESY)

Individual Counseling \$173.00 per hour

\$7,612 for a 200-day school year (includes ESY)

Group Counseling \$173.00 per hour

\$7,612 for a 200-day school year (includes ESY)

Parent Counseling \$173.00 per hour

\$7,612 for a 200-day school year (includes ESY)

Occupational Therapy – Consult \$95.00 per hour

\$4,180 for a 200-day school year (includes ESY)

Positive Behavioral Programming \$100 per hour

\$4,400 for a 200-day school year (includes ESY)

Total 2017-2018 Academic Costs \$90,510

Additional Considerations

Transportation \$260 per day

\$52,000 for a 200-day school year (includes ESY)

Total Cost: \$142,500

Timothy Murphy School

2018-2019 Rates²

Daily Rate \$263.94

\$52,788 for a 200-day school year (includes ESY)

Individual Counseling \$119.00 per hour

\$5,236 for a 200-day school year (includes ESY)

Group Counseling \$119.00 per hour

\$5,236 for a 200-day school year (includes ESY)

Parent Counseling \$119.00 per hour

\$5,236 for a 200-day school year (includes ESY)

Occupational Therapy \$90.00 per hour

\$3,960 for a 200-day school year (includes ESY)

Positive Behavioral Programming \$100 per hour

\$4,400 for a 200-day school year (includes ESY)

Total 2017-2018 Academic Costs \$76,856

Additional Considerations

Transportation \$100 per day

\$20,000 for a 200-day school year (includes ESY)

Total Cost: \$96,856

¹ Based upon 180 instructional days and 20 days of extended school year (ESY).

² Based upon 180 instructional days and 20 days of extended school year (ESY). Group, parent, individual and OT consult rates were presumed since the NPS does not currently offer these services and the services would need to be provided by a NPA.

What is the cost of providing occupational therapy through an NPA for each of the SELPA's member LEAs?

For the 2017-2018 school year, the total cost of providing occupational therapy through an NPA in MCOE regionalized classes for each of the SELPA's member was \$109,181.60.

District	Annual Cost for Occupational Therapy
Dixie Elementary	\$13,899.00
Kentfield	\$3,013.28

What is the average cost of serving a student in a nonpublic school setting?

The Bay Area Collaborative (BAC) provides an average daily rate in addition to average rates for related services. The average daily rate for a student to attend a nonpublic school within the Bay Area Collaborative is \$202.15. The average annual cost of serving a student in a nonpublic school setting is \$36,387. This annual cost excludes additional costs for related services and transportation.

There are two nonpublic schools outside of the Bay Area Collaborative that Marin SELPA's member LEAs have identified as appropriate placements for students requiring a nonpublic school setting. The following two schools are not included in the BAC: Irene M Hunt School of Marin and Oakhill School. The daily rate for Irene M Hunt is \$201.00 and the daily rate for Oakhill is \$219.00. The average annual cost for serving a student in one of these two nonpublic schools is \$37,800.
